4. First aid measures	0		

a. Eye contact

Flush eyes with plenty of water for at least 15 minutes while holding eyelids open.

	Consult a physician if signs of irritation appear.
b. Skin contact	Immediately remove contaminated clothing or shoes, wash skin with plenty of water for at least 15 minutes. Use soap if readily available, or follow by thoroughly washing soap and water. Do not reuse clothing until thoroughly decontaminated.
c. Inhalation	Move person to fresh air area and provide oxygen if breathing is difficult. Consult a physician if effects occur.
d. Ingestion	Do not induce vomiting because of risk of aspiration. Rinse mouth with water. Consult a physician if effects occur.
5. Fire fighting measures	
Hazardous products of Combustion	In case of fire, toxic fumes might be formed
Extinguishing media	Water spray, foam, dry chemical, or carbon dioxide
Unusual fire or explosion Hazards	May produce hazardous fumes of hazardous decomposition products
	When fire fighting, wear full protective equipment including self-contained breathing apparatus
6. Accidental release measures	
Personal precautions	Put on adequate protective equipment. See section 8, Exposure control/ Personal Protection
Environmental precautions	Keep away from drains, surface-water, ground water and soil.
Clean-up Method	Sweep spilled material into non-leaking containers. All disposal methods must be in compliance
	with applicable local regulations.
7. Handling and storage	
a. Storage	Keep away from: acids, alkalis, oxidizers. Keep in cool, dry, ventilate storage and
	in closed containers. Store in steel containers preferably located outdoors,
	above ground, and surrounded by dikes to contain spills or leaks. Avoid freezing
	temperatures during storage. Do not store in reactive metal containers. Product
	may partially freeze with extended exposure to cold temperatures.
b. Handling	When handling, do not eat, drink, or smoke. Avoid contact with eyes. Avoid contact with skin. Spraying increases the risk of hazardous exposure. In atmospheres where the material is sprayed, workers should avoid contact with aerosols containing S through proper engineering controls, such as exhaust ventilation. Wear goggles and face shield. Do not get into the eyes. Other individuals working in the vicinity of the product where exposure can occur should also be fitted with chemical splash goggles. Contaminated clothing should be properly disposed of in a manner that will not cause additional exposure. Workers should be strongly encouraged to follow good personal hygiene practices, such as thorough washing of hands, arms, neck and face following working with JP-107.
